

# ARCHITECTURE & INTERIOR DESIGN

Part of a diversified family of solutions

[jmt.com](http://jmt.com)

# About Us

JMT architects have a wealth of experience in architectural design and project management.

Our senior architects average more than 25 years of experience in designing buildings and getting them built.

JMT's architecture staff is fully capable of providing the entire cross-section of conventional and state-of-the-art architectural services.

Building Design & Construction Supervision

Designing New from the Ground Up

Renovating Existing & Historic Structures

Designing Interiors & Space Planning

Master Planning for Large Facilities & Campuses

Computer Aided Design (CAD)

Revit & BIM Modeling

3D Imaging & Visualization

Cost Estimating & Cost Tracking

Sustainability (LEED®)

# Architecture

Our architects are adept at establishing strong and productive relationships with our clients. Since architecture is a cross disciplinary endeavor involving a team of architects, engineers, and other professionals working closely together with a client, we strive to engender good will and cooperation among all stakeholders. We possess demonstrated success in this regard. JMT Architecture is privileged to work for clients who will attest to our ability to solidly perform and deliver design services for their needs.

---

We deliver innovative, proactive solutions that improve project delivery and meet your project goals.

---

# Services

JMT architects possess extensive experience, from concept through implementation. JMT systematically performs all phases of design in accordance with the client's design intent and functional requirements while maintaining sensitivity to the appropriate aesthetics for any given project type and budget.

## Sustainability

As a member of the U.S. Green Building Council, JMT offers our clients a rich array of sustainable services encompassing a wide variety of project goals and types. We offer these services in all of our major business markets and across all of our service sectors. We engage and leverage all of our company's disciplines, led by LEED® Accredited Professionals, to deliver sustainable solutions that make a difference in our communities and with our clients.

# Team Support

JMT Architecture is uniquely situated to call upon the resources of in-house staff to provide the entire complement of engineering and related disciplines required to support the building design. This array of expertise provides the client with a one-stop-shop for any building or facility project.

Landscape Architecture

Structural Engineering

Civil Engineering

Geotechnical Engineering

Planning

LEED® Design

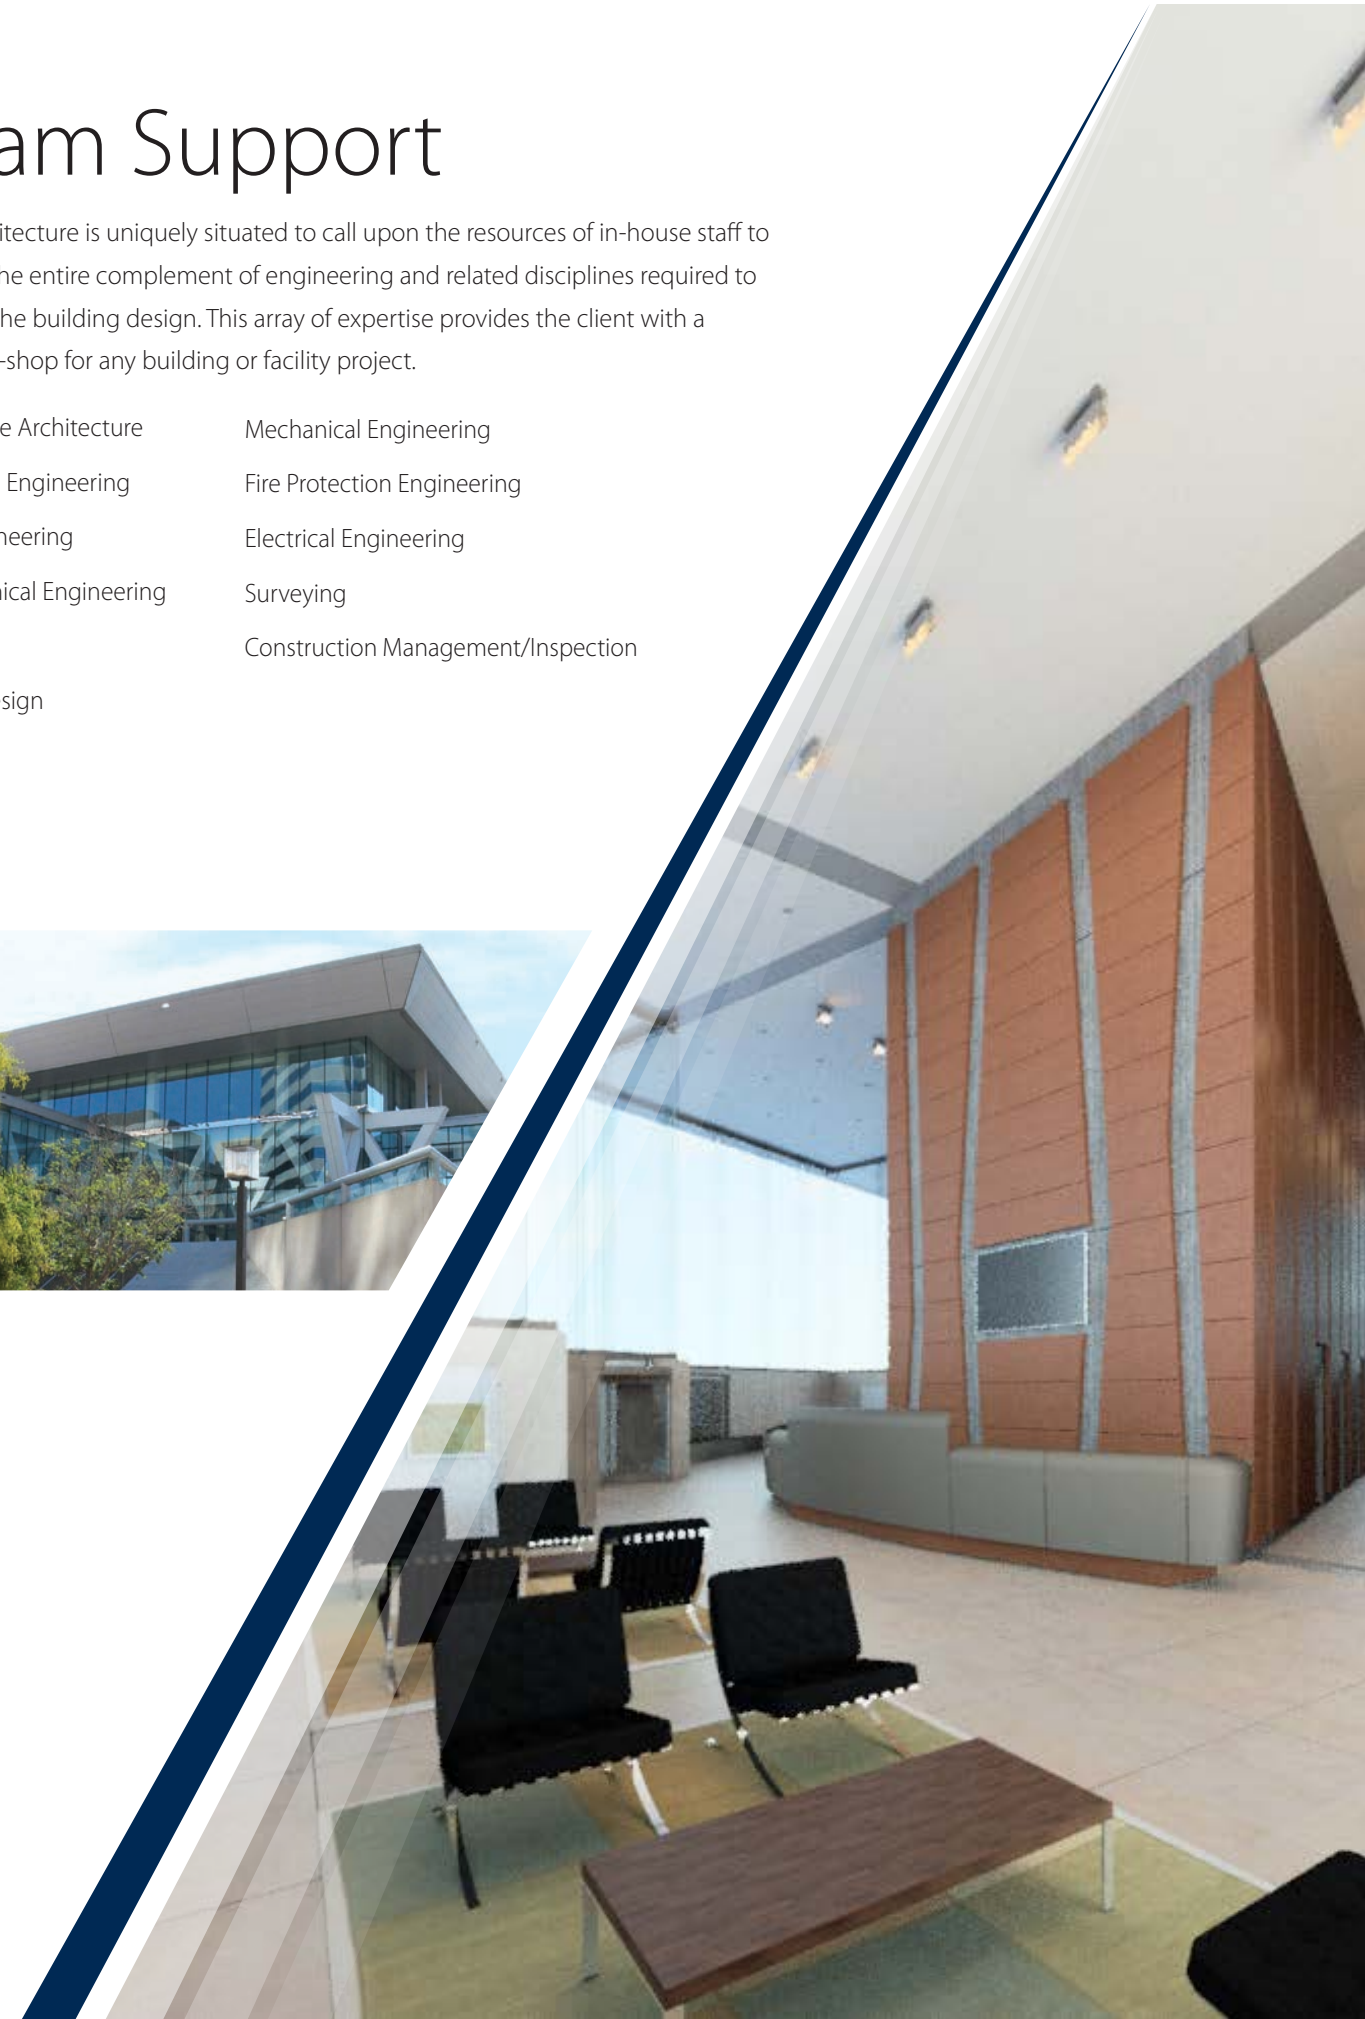

Mechanical Engineering

Fire Protection Engineering

Electrical Engineering

Surveying

Construction Management/Inspection

# Specialty Support

JMT Architecture has the ability to fast track projects, as we have demonstrated for clients such as school systems, where summertime projects require diligent attention. In addition, our architects and the JMT team offer varied unique services such as:

Security Assessments

Emergency Response Planning

Life Cycle Integration

Building Systems Commissioning (including LEED®)

Peer Review
