## About Us

JMT is a multidisciplined professional A/E design and construction management firm serving clients since 1971.

We offer a complete array of engineering, architectural, and construction management services specific to our clients' needs.

# Facilities Education

JMT has a unique blend of professional planners, engineers, architects, and construction managers that provide multidisciplinary solutions for complex school projects. Our capabilities cover the breadth of school facilities ranging from K-12 schools through higher education facilities.

We have extensive experience, through our partnerships with educational systems, in providing complete facility infrastructure and technological resources designed to provide a healthy learning environment.

Call or email to schedule a site visit to discuss your athletic facility needs.

# Pennsylvania Higher Education

We have a vested interest in the higher education community of Pennsylvania, demonstrated by the hiring of 180 graduates of the colleges and universities located in Pennsylvania.

These graduates of Penn State, University of Pittsburgh, and others are currently working in either one of our five offices in Pennsylvania or in other JMT offices throughout the mid-Atlantic area.

JMT currently employs more than 230 professionals throughout our five offices in the state of Pennsylvania.

Career fair at Penn State University

Exceptional facilities contribute to exceptional learning.
